

X-Force Volunteer

Project Title	X-Force Volunteer
Project Summary	The X-Force program is an unparalleled opportunity for university students to collaborate with the United States military on real-world national security problems.
Country	United States

Project Description

The X-Force Remote Volunteer program allows for students to serve their country in a way that works for them. This part-time, remote, volunteer opportunity pairs teams of STEM students with United States military sponsors for collaborative problem-solving. Past projects include developing an automated flight scheduling software for the United States Air Force, revolutionizing information operation visualizing for the United States Army, and improving device security for the United State Marine Corps. Serve your country and join the X-Force: a growing cohort of over 40 students from 10+ universities working with 15 military sponsors.
